8TH INTERNATIONAL CONFERENCE ON PLANT PROTECTION IN THE TROPICS

SCIENTIFIC PROGRAMME

8th International Conference on
Plant Protection in the Tropics (8thICPPT)

INTRODUCTION

The Malaysian Plant Protection Society (MAPPS) is proud to organize the 8th series of this conference in the year 2014. Echoing the current focus and interest in agriculture by the Malaysian government and global communities, MAPPS wishes to bring forth again an international meeting of the minds on plant protection to this region. The theme, "Plant protection for food security and safety", has been selected as befitting to the current needs of farmers and planters who are improving practices to provide food for a growing population.

Multidisciplinary research is becoming increasingly essential and this conference will provide a platform for interaction among practitioners and scientists in plant protection and management.

WHO SHOULD ATTEND

Academics, scientists, industrialists, environmental and natural resources experts, policy makers, entrepreneurs, students and interested individuals.

The Scientific Programme covers a broad range of topics under Plant Protection. The topics of interest include:

- Biocontrol and Biopesticide
- Biotechnology and Diagnostic Advancement
- Entomology, Nematology and Acarology
- Epidemiology and Surveillance
- Good Agriculture Practices
- Pesticide Science and Application Technology
- Pest Management and Modelling
- Plant Pathology
- Urban Pest
- Vertebrate Pests
- Weed Science

PAPERS Instructions will be given in the second announcement.
